EFFICIENCY COMMITTEE

Load Management Standards (Docket #08-DR-01) Workshop on

**DRAFT PROPOSED
LOAD MANAGEMENT STANDARDS**

Wednesday, December 10th, 2008

9:30 AM to 5 PM

Hearing Room A – California Energy Commission

Commissioner Opening Comments

Energy Commission Staff Introduction

- Gabriel D. Taylor, P.E., *CEC Load Management Standards Project Manager*

DISCUSSION SESSION #1: Rates & Customer Data

- LMS-2: Dynamic Electricity Rates
- LMS-7: Customer Access to Meter Data
 - *Possible Discussion Topics: PTR, Default Opt-Out Dynamic Rates, Shadow Bills*

Lunch Break (1 hour)

DISCUSSION SESSION #2: Advanced Metering & Load Management Technology

- LMS-1: Advanced Metering Infrastructure (AMI) Schedule
- LMS-3: Statewide Time-Differentiated Rate Broadcast
- LMS-6: Enabling Technology Adoption Programs
 - *Possible Discussion Topics: Cost Effectiveness, Program Options*

Break (10 minutes)

DISCUSSION SESSION #3: Peak Load Energy Efficiency

- LMS-4: Home Energy Rating System (HERS) Information
- LMS-5: Existing Building Peak Energy Efficiency Improvements
 - *Possible Discussion Topics: HERS Proceeding, Current Efficiency Programs*
